DEVELOPMENT EXPERIENCE

Software Engineering Intern New York, NY
First-Rate Tech Corp. *Jun - Aug 2026*

- Developed a cross-platform mobile application using Flutter for MakeItRain, a field service management platform with an estimated replacement cost of ~$1.3M
- Designed and implemented 30+ mobile screens and reusable UI components using Figma
- Performed 200+ QA tests across the mobile application and staging website for the platform, identifying and resolving 10+ bugs and security vulnerabilities before shipping
- Hosted 2 client-facing presentations, incorporating requested features and feedback from the stakeholders, shortening the feedback-to-delivery cycle

TECHNICAL SKILLS

Programming Languages, JavaScript, Python, Dart, Java, C++, HTML, CSS, Lua
Frameworks & Libraries, Flutter, React
Tools & Platforms, GitHub, Git, Figma, Vercel

PROFESSIONAL EXPERIENCE

Tier 2 IT Support Manager Berea, KY
